TECHNICAL SKILLS

Systems Administration: Ubuntu, Debian, RedHat, CentOS
CI/CD: AWS CodePipeline, GitHub Actions
Version Control: Git, GitHub, GitLab
Monitoring, Logging & Apm: Grafana, Prometheus, ELK

Cloud Infrastructure: AWS
Containerization: LXC, Docker
Automation: Bash Scripting, Ansible
Databases: Redis, MySQL, MongoDB

EXPERIENCE

Jr. DevOps Engineer

Jan 2024 – Dec 2024

Slash RTC

Powai, Mumbai

- Regularly performed code updates, instance creation using ansible, and configuration management to ensure seamless operations.
- Configured Grafana dashboards and Prometheus for real-time monitoring, data visualization, & alerting across diverse systems and applications using various exporters.
- Implemented AWS CI/CD pipelines using CodePipeline, CodeBuild, and CodeDeploy for automated deployments.
- Deployed, configured, and administered physical on-premises ubuntu servers in the data center, ensuring high performance, security, and reliability for enterprise systems.
- Migrated the entire infrastructure from AWS and E2E Cloud to an on-prem Linux environment overseeing installation, configuration and deployment of the product.

DevOps Engineer (Intern)

Oct 2023 – Jan 2024

Slash RTC

Powai, Mumbai

- Developed Bash scripts to automate the installation and configuration of monitoring tools such as Grafana, Prometheus, MySQL, Redis, and Elasticsearch, along with exporters like Node, MySQL, Redis, etc.
- Set up and configured a comprehensive Grafana monitoring environment for the UAT server using the specified exporters to ensure efficient system performance tracking.
- Monitored the cloud infrastructure proactively, identifying potential issues and creating detailed monitoring reports to aid in performance optimization and troubleshooting.

AR/VR Content Developer

May 2022 – Nov 2022

SimInsights Inc.

Remote

- Developed and optimized interactive simulations by applying logical problem-solving and analytical skills, ensuring they met high-quality standards and aligned with client requirements.
- Led multiplayer simulation testing, coordinating a team of 14-15 colleagues, and monitoring data gathered on ELK for performance analysis and optimization.
- Collaborated on and successfully delivered multiple medical simulation projects for UCLA, contributing to advancements in medical training and education.

AR/VR Software Tester (Intern)

Feb 2022 – May 2022

SimInsights Inc.

Remote

- Conducted testing and created detailed test cases and scenarios for new software builds across multiple platforms, including Desktop, Web, and Virtual Reality (VR).
- Performed thorough testing and maintenance of existing simulations to ensure functionality and performance.
- Designed and developed new test simulations to evaluate and validate newly implemented features.

EDUCATION

Guru Nanak Khalsa College

Matunga, Mumbai

Masters of Science in Computer Science (9.63 CGPA)

2020-2022

Pune Vidyarthi Griha College

Ghatkopar, Mumbai

Bachelors of Science in Computer Science (8.78 CGPA)

2017-2020

CERTIFICATION

Red hat 9 Administration Qualified (RHCSA/RHCE)

2023
